

# 1. Poonam's day out

## Overview

- Poonam wants to go to school but has fever
- She falls asleep outside and is awakened by something on her face
- She wonders if it's the crow or pigeon's mischief
- Children learn from their environment and should observe nature.

## Habitats and classification

- Animals live in various places: trees, water, land, sky, houses
- Children love colors, shapes, movements, and sounds of animals
- Diversity in the animal world and beginning of classification

## Learning

- Recap the importance of observing nature and learning from family
- Encourage active participation and imitation of animals
- Emphasize understanding diversity and classifying animals.
